Overview

Titan Sea and Air Services Pvt. Ltd. (TSAS) is one of the leading International Freight Forwarding, Customs Brokerage and Road Transportation Company established in India in 1994, by Mr. M Jagannath Rai.

Helmed by Mr. M Jagannath Rai also known as MJ, the Managing Director and Founder of the Company, TSAS is manned by a capable crew with extensive knowledge, exposure and experience in the freight forwarding industry, custom brokerage, project forwarding, relocations and road transportation of all kinds of cargo. Over the years, TSAS has grown from strength to strength and today commands a Team of experienced staff who are well versed with the nuances of the Global Freight Forwarding Industry, and the ever changing demands of our clientele. Over the years we have acquired several memberships with recognized organizations across the globe which in turn speaks volumes for the services rendered by TSAS. We do not believe in compromising on quality of services rendered, no matter how small or big the move for our clients may be.

Our Vision

To become the most customer preferred service provider in both the local and global transportation industry.

Our Mission

To create value for all stakeholders by practicing the best business ethics.

Our Objective

To maintain the concept of being a one stop shop for all our customers in the Shipping and Logistics Industry. We are committed to creating a sense of individual and social accountability and passion for customer delight.

TSAS - A "LOGISTICS EXPERT"

Services We Provide:

General Cargo Movement –

Through our expansive network of overseas partners across the globe, we are able to offer our clients the most comprehensive, competitive door-to-door solutions, for any type of commercial cargo movement.

Project Handling – With our well-trained base team and associates from around the globe, we specialize in handling varied project logistics worldwide.

Inland Transportation – We specialize in arranging Road Transportation pan-India and are associated with p=top class Transport companies, equipped to provide all kinds of vehicles for all kinds of cargo.

Storage & Warehousing facilities – We provide dry, clean and secure units for short term and long-term storage be it for commercial cargo or household goods and personal effects.

Packing & Moving –

Our global network of accredited international moving partners and freight forwarders ensure all our shipments are booked on the most direct services with shortest transit times, & your goods are transported carefully and arrive safely. We strives to do our best to make the mammoth task of office moving simple & hassle free. We believe that every organisation can perform better by being in complete control of the information it creates, processes, preserves, & destroys.

Hazardous Cargo – We have Dangerous Goods (DG) qualified team to handle your precious Hazardous Cargo with proper procedures and documentation.

Palletization – We can get your loose cargo palletized and hence reducing the overall area requiring storing these cargos.

Event & Exhibitions– We have experienced and trained team to take care of your precious cargo along with the documentation part if any Re-export is involved.

Insurance – Safety and security are the two important aspects in a customer's need, so we can even make them comfortable by providing the best Insurance for the complete movement.

Value Added Services

Supply Chain Planning & Strategy

– We strategize and execute tailor-made plans based on packing list information, origin & destination.

FTWZ Expertize – We are a FTWZ unit holder and have the best expertise in providing innovative solutions for all your problems with FTWZ solutions.

Packing & Relabeling – We can easily get your cargo relabeled and packed in our Warehouse or even in our FTWZ unit if want to distribute directly to the retailers.

Import / Export Management – If you need an associate to help you in your Import/Export Management in India, we can help you in any possible way required.

After Sales Support – We provide the best after Sales Support with proper communication and updating of the status and condition of your cargo.

Reverse Logistics – For any case, you need to re-export any shipment/cargo back to Origin, we can handle the documentation easily.

Custom Clearance – We have our In-house Custom House Agency for clearing your Import or Export shipments.

Supply Chain Visibility – With our tracking system, we give 100% visibility of the complete transaction of your logistics movement.

Our Esteemed Clients

TEAM HEAD

M Jagannath Rai
Managing Director

M Jagannath Rai a.k.a. M.J is a Graduate from Mangalore University in 1983. MJ started his career in logistics industry through a well-known British Shipping Company, Mackinnon Mackenzie Limited, one of the oldest and largest foreign shipping and freight forwarding company in India. Before turning entrepreneur with Titan in 1994, he was with Air Link India Limited, (US-based Freight Forwarder currently known as Bollore Logistics) handling charter flights for U.S. and chartered vessels worldwide. In 1999, he started Titan Overseas Corporation Pvt. Ltd. as an international trading firm.

Current Affiliations:

- Founder Director & Ex-Chairman, U.S.-India Importers' Council (USIIC)
- India Advisor, Port of Baltimore
- Managing Committee Member, Brihanmumbai Custom House Agents' Association (BCHAA)
- Managing Committee Member, Federation of Freight Forwarders' Association in India (FFFAI)

M Shekhar Rai
President Operations

M Shekhar Rai is a Commerce Graduate from Mangalore University. He started his career with Titan since year 1996 and has been integral part of it since then. He is heading operations in Titan across projects (heavy machinery and break bulk), warehousing, customs clearance, freight forwarding, relocations and road transportation. He has handled the US embassy overseas building project at BKC Mumbai, New Delhi and Jakarta. Apart from that he has been instrumental in successful implementation of logistics for a major theme park project in India.

Mumbai Metro Project - Underground

Mumbai, one of the most thickly populated city of the world with a population of around 15 million people in an area of 603 sq. km. It is the most congested city with narrow roads, due to which moving such over-dimensional packages of Tunnel Boring Machine is itself a herculean task.

To ensure 100% safety of the machine, we had to undertake the complete route survey couple of times. For more clarity, we even performed a mock drill on 12 hydraulic axles set vehicle with a frame structure replicating the actual machine dimension to make sure that the transportation of the heaviest TBM part weighing 162 MT and 6.63m diameter is completed securely so as to satisfy all stake holders involved in the project.

To ensure speedy delivery, we arranged on wheel clearance and successfully completed all the port related procedures within 48 hours including CE certification.

PROJECTS ACCOMPLISHED

Project from Mumbai, India to Queensland, Australia
Shipment - Metro Rail Coaches with accessories
Quantity - 38 packages
Volume - 1737 CBM
Weight - 3 35 Metric Tonnes
